RESEARCH EXPERIENCE

TL1 Multidisciplinary Pre-doctoral Clinical Research Program Fellow 2016-present

Institute for Translational Health Sciences
University of Washington in Partnership with Seattle Public Schools

2017-18: Enhancing Data-Driven Decision Making for School Improvement at the Seattle Public Schools.

In partnership with district, made recommendations to redesign student climate survey to align to school improvement practices based on psychometric analysis and coordination with stakeholders. Employed multilevel and hierarchical modeling to examine associations of climate with discipline and academic achievement and over time, and whether relationships differ by race.

2016-17: Assessment Strategies for Social and Emotional Learning in the Seattle Public School District

Analyzed the measurement properties of student school climate and social emotional learning survey, including whether constructs are meaningful across sociocultural factors. Used hierarchical modeling to assess differences in climate and social emotional learning perceptions by race, gender and language spoken at home.

Research Analyst and Assistant

2013- 2016

Social Development Research Group, University of Washington

Social and Genetic Factors in the Development of Tobacco and Alcohol Dependence (PI: Karl G. Hill)

Investigated the role of social environmental factors on mental health and substance use problems using structural equation modeling with longitudinal data from the Seattle Social Development Project.

Environmental Mechanisms for Health, Drug Abuse and HIV Risk (PI: Rick Kosterman)

Used qualitative and quantitative methods to examine the effect of built and social environments on mental health and substance use problems across the life course, including the effects of marijuana legalization.

Fostering Higher Education (PI: Amy Salazar)

Facilitated focus groups with youth aging out of foster care and community stakeholders in higher education to develop an evidenced-based intervention to support youth aging out of foster care achieve their goals of higher education.

Research Practicum

2015

School of Social Work, University of Washington

Mentor: Amelia Gavin. Analyzed longitudinal data for race differences in adolescent mechanisms linking childhood poverty to growth in BMI in adulthood using growth multiple group modeling.

Observational Coder

Summer 2013

Social Development Research Group, University of Washington

The Intergenerational Project (PI: Karl Hill)

Conducted observational coding of parent-child interactions using Social Development Model principles.

Art Therapy Research Collaborative Member

2012-2013

Marital and Family Therapy and Clinical Art Therapy, Loyola Marymount University

Designed and implemented survey of evidence-based practice use by Art Therapists in California, collaborated on art based analyses of clinical case studies.

Masters Research Project

2006-2007

Marital and Family Therapy and Clinical Art Therapy, Loyola Marymount University

Masters Research Project: *Theories of Change in Art Therapy*. Developed a framework for mechanisms of change in art therapy using qualitative research principles from grounded theory.

Honors Thesis

2004-2005

Psychology Department, Syracuse University

Honors Thesis: *Comparing Montessori Education and Conventional Education on Aspects of Creativity*. Used two tests of creativity (Thematic Apperception Test and ratings of creativity on collage) to examine differences in creativity for students in different educational programs.
