
CURRICULUM VITAE

MICHELLE JOHNSON-JENNINGS, Ed.M., Ph.D.
(Choctaw Nation Enrolled Tribal Member)
 drmjj@uw.edu

RANK/ EDUCATION/POSITIONS

Academic Rank

University of Washington Full Professor, tenured Director Environmental and Land-Based Healing Division Indigenous Wellness Research Institute, School of Social Work School of Public Health, Tenured Full Professor	2021- 2021-
University Colorado; Affiliate Associate Professor School of Public Health	2019-
University of Waikato; Affiliate Academic Faculty Maori Research Psychology Unit	2020-
University of Saskatchewan Affiliate Academic Faculty	2021-

Education

Degree	Institution	Date Degree Granted
B.S./B.A.	University of Oklahoma Education and Native American Studies	1998
Ed.M.	Harvard University Human Development and Psychology and Contemporary Native Issues	1999

Ph.D.	University of Wisconsin-Madison Counseling Psychology/Integrated Primary Care Psychology <i>(American Psychological Association Accredited)</i>	2010
-------	--	------

Certifications, Licenses

USA License-Eligible Clinical Psychologist; APA trained.	2010-
--	-------

Training

Wisconsin Internship Consortium in Professional Psychology (WICPP)/ UW Hospitals and Clinics & Gerald Ignace Urban Indian Clinic Integrated Primary Care Pre-doctoral Internship/Residency	2008-2009
--	-----------

Academic Appointments, Faculty and Administrative Appointments

University of Saskatchewan, Saskatoon, SK Associate Professor, tenured Indigenous Studies	2018-2021
--	-----------

Canada Research Chair for Indigenous Comm Engaged Rsrch Scientific Director, Waniska Indigenous HIV/AIDS Centre Land-Based Healing CFI Director	2019-2021
---	-----------

University of Minnesota, Minneapolis, MN Tenure track Asst. Prof- Tenured Assoc Prof Associate to Dean for Indigenous Health	2010-2018 2016-2018
--	------------------------

University of Minnesota Research for Indigenous Community Health (RICH) Center Founding Director / Director	2011- 2021
---	------------

University of Wisconsin-Madison Academic Advising Dean	2001-2003
---	-----------

HONORS AND AWARDS FOR RESEARCH WORK, TEACHING, PUBLIC ENGAGEMENT, AND SERVICE (SELECTED)

Usask Top Faculty Ranking, Collegiate Peer Review	2020
Usask Faculty Presidential Award	2020
Canada Research Chair for Indigenous Community Engaged Research (National Peer Review)	2019
Global Award Fellow, University of Saskatchewan	2019
Usask Collegiate Peer Review Merit Award	2018
Community Engaged Scholar Award, Collegiate award, UMN	2017
Fellow, J. William Fulbright Foreign Scholarship Board	2016-2017
Fellow, NIH/NCI Mayo Clinic Hampton Spirit of Eagles	2015-2017
Fellow, NIH/NIDDK National Congress of American Indians	2014
Fellow, Harvard Women into Leadership Institute	2014
Travel Fellow, NIH, Summer Institute on Innovative Methods	2014
Fellow, NIH, NIDDK, National Congress of American Indians	2013-2015
Washington University-Center for Diabetes Translational Research Travel Fellow, NIH, NIDA	2012-2013
Fellow, NIH, NIMHD Health Equity Leadership Institute (HELI)	2011,2014
University of Wisconsin Notable Instructors Award	2010

RESEARCH AND SCHOLARSHIP (SELECTED)

Grants and Contracts

- September 2021-June 2021
Michelle Johnson-Jennings (Applicant PI; Multiple PI);
Canada Institute for Health Research (CIHR) CoVARR-NET Covid-19 Indigenous Engagement Development and Research (CIEDAR) Core September 2020-August 2025
Huyser, K (PI), Collins, K (Co-PI)
Purpose: As lead for the International Indigenous COVID-19 research arm, we seek to identify successful COVID-19 mitigation and vaccine strategies and improve COVID-19 prevention and treatment among Indigenous groups.
- September 2020-June 2024
Johnson-Jennings, M (Co-Investigator)

- Working to End Racial Oppression (WERO)
2020 Endeavor Round, Leading Science Research New Zealand Government Ministry of Business Innovation and Employment
Waikere Moana Waitoki (PI), Francis Collins(PI), Arama Rata (coPI),
Purpose: Working to End Racial Oppression is an interdisciplinary research programme that investigates the costs of racism, the systems that produce and reproduce racism, and transformative responses to reduce racism.
3. April 1, 2019-Nov 2021
Johnson-Jennings, M (PI/Lead)
Canada Institute of Health Research/CIHR Indigenous Community Engaged Research Chair/CRC Award
Indigenous Engagement in Reclaiming and Revitalizing Cultural Health Beliefs for Well-Being and Land-Based Healing
Purpose: Developed a cross-national, land-based healing framework encouraging global partnerships in co-developing an Indigenous food wise practices repository to encourage healthy eating and land practices and co-designing land-based health interventions.
 4. April 2019-November 2021
Johnson-Jennings, Michelle PI/Lead
CIHR Canada Foundation for Innovation JELF Infrastructure grant
FOOD Indigenous Repository
Purpose: to develop the infrastructure to develop a cross-national, Indigenous food wise practices repository to encourage healthy eating and land practices.
 5. May 2019- December 2021.
Johnson-Jennings, M., PI
Global Indigenous Health: Creating Relationships for Indigenous Land-based Healing.
Global Innovation Fund
Jennings, D., Collins, K. (Site PI), Pihama, L., Smith, L.
Purpose: to develop partnerships with the University of Waikato and principal leads in Aotearoa/New Zealand to explore land-based healing and begin collaborations towards a joint project and coursework related to Indigenous forms of healing from the land.
 6. April 30, 2019-April 29, 2021
Johnson-Jennings, M. Programme Advisor, co-investigator
New Zealand National Health Research Council
Tangata Whenua Tangata Ora: Investigating health gain through whenua initiatives
 7. 07/01/2014-05/31/2019
Johnson-Jennings, M (multiple PI 2018-2021, co-PI) Walters, K (PI),
National Institutes of Health 1RO1DA037176-01
Randomized Control Trail/RCT, *Yappalli: Re-walking the Choctaw Trail of Tears Health Intervention*
Purpose: to conduct randomized clinical trial of a community engaged, land-based healing intervention to support Indigenous cultural continuity and healing in order to reduce food and opioid and other drug addictions.
 8. August 2018-December 2021
Multiple-PI: Johnson-Jennings, M
UMN Family-Centered Opioid Treatment (FaCT) Grant/

PI Cuong Pham; Allen, M- multiple-PI

Purpose: to explore opioid use among Indigenous communities within Minnesota and identify community needs, research interests and potential areas for prevention.

9. January 2019-December 2021

Understanding and advocating for Miyo-Machihowin among Indigenous Peoples

SPROUT Grant. Co-Investigator: Johnson-Jennings, M. Nicolas-PI/MJJ Co-investigator

Purpose: to develop a community driven, mixed methods exploratory study among Indigenous persons in Saskatchewan who suffer from or are affect irritable bowel syndrome.

Selected Past External Sources

10. September 2020-June 2021

Johnson-Jennings, M. (multiple PI)

Canadian Institute of Health Research Grant The Sanctum's 1.5's Hope through Strength: A novel, women-directed and community-based approach to wholistic care for mother-infant pairs experiencing a substance use disorder/HIV. Purpose: Sanctum 1.5 is the first Human Immunodeficiency Virus (HIV) and at-risk pre and postnatal care home in Canada. It aims to support women during and after their pregnancies, while preventing perinatal HIV transmission and the entry of the baby into the foster care system. Sanctum 1.5 provides supportive housing and healthcare to pregnant and postpartum women living in high risk conditions, to help them achieve the best health outcomes for themselves and their baby. The research study team is a diverse group of Indigenous, African and non-Indigenous researchers, clinicians, service providers, community activists and Peer Research Associates (PRA, i.e., women with lived experience of substance use while pregnant). The study will research Sanctum 1.5 to better understand how its integrated care model improves health outcomes and reduces the number of children entering the foster care system.

11. June 13, 2019 – June 2021

Johnson-Jennings, M (multiple PI/Co Lead/)

CIHR Wuniska! Indigenous Centre on HIV/HCV/STBBI Inequities

Purpose: to co-develop a cross-provincial, land-based healing and gender rebalancing Indigenous HIV/AIDS Centre, which will provide necessary infrastructure for Indigenous communities and researchers.

12. October 2018/10 – September 2020

Johnson-Jennings, M. Co-investigator

Indigenous Wellness Environment (IWE) Network Environment for Indigenous Health Research (NEIHR) Network Grant: Development Grants, Network Environment for Indigenous Health Research

Purpose: to develop an Indigenous network of scholars create and support a new mentorship culture, drawing from historic Indigenous approaches to mentorship, apprenticeship, learning and knowledge transfer systems, and building in Indigenous values and ethics.

13. March 2018- August 2020

Johnson-Jennings, Michelle (co-PI).

National Institute of Health, NIDDK Center for Diabetes Control and Prevention
 American Indian Alaska Native Diabetes grant. UC Denver AIANCDTR.
 National Institute of Diabetes, Digestive and Kidney Disease Pilot Awards
 Jennings, D (PI)

Purpose: to conduct secondary data analysis on Indian Health Service in order to identify the social determinants of health that place Indigenous youth at risk for obesity and protective factors.

14. February 2018 – December 2020

Johnson-Jennings, (Co-applicant/investigator)

Understanding Inflammatory Bowel Disease (IBD) among Indigenous people in Saskatchewan Funding Sources: University of Saskatchewan College of Medicine Research Award (CoMRAD) application

Nicholas-Sanchez, J. (PI)

Purpose: to conduct a community driven, mixed methods exploratory study among Indigenous persons in Saskatchewan who suffer from or are affect irritable bowel syndrome.

15. May 1, 2014 – September 30, 2017

Johnson-Jennings, (Co-Investigator)

National Institutes of Health/National Institute on Drug Abuse 1R01DA035143-01A1 Intertribal Talking Circle for the Prevention of Substance Abuse among Native Youth

Purpose: The purpose of this randomized control trial is to inter-tribally test an empirically supported talking circle intervention among American Indian youth at three remote tribal school locations in the US.

16. August 2015-September 2016

Johnson-Jennings, M. (PI)

Greater New Orleans Foundation, co-sponsored by University of Minnesota and University of Washington

Walters, K (co-PI)

Returning to Our Roots...Houma Tribal Health and Wellness

Purpose: The purpose is to develop a Houma tribal specific health framework in order to design future health interventions to prevent obesity and substance use among Houma women.

17. 8/1/2012-7/31/2014, 2016-2018

Principal Investigator

National Institute of Health L16 Career Award NOT-OD-10-105

Tribal Health and Wellness: Using culturally-adapted, empirically supported treatment to reduce health disparities related to addiction

Purpose: The purpose is to develop a Houma tribal specific health intervention as guided by collected qualitative research and determine if this lowers risk of obesity and substance use.

18. 06/01/2013 – 05/31/2015

Johnson-Jennings, M. (Co-Investigator)

NIH, NIDA 5 R01 DA034466-03

American Indians, Substance Use, And HIV risk behaviors: Secondary data analysis of the National Longitudinal Study of Adolescent Health (R01)

- Purpose:** This project sought to conduct secondary data analyses to identify risk and protective factors among American Indian youth.
19. 8/1/2012-7/31/2014
Johnson-Jennings (PI)
National Institute of Health L16 Career Award NOT-OD-10-105
American Indian cultural health beliefs for prescription medications, chronic pain, and provider health interventions
Purpose: Through partnering with tribal health professionals, this project sought to determine cultural health beliefs for prescription medications and how these relate to chronic pain and provider interventions.
20. 12/1/2010-11/31/2013
Johnson-Jennings (PI; Post-doctoral Research Award)
National Institute of Health 5R25MH084565-03
Indigenous HIV/AIDS Training Research Fellow Pilot study
The Relationship between racial discrimination, pain, and smoking among Two-Spirit populations: Secondary data analysis of the HONOR project
Purpose: This project sought to determine the overlap between daily stressors (i.e., racial discrimination) and pain and smoking through secondary data analysis.
21. 7/1/2010-6/23/2011
Principal Investigator (Post-doctoral Research) National Institute of Health
5P20RR016455-11
Idea Network Biomedical Research Excellence
Risk and protective factors for American Indian Substance use
Purpose: This project sought to identify risk and protective for substance use among American Indian youth.
22. 7/1/2016-6/30/2017
Johnson-Jennings, M. (Co-PI)
Multicultural Award Diversity
American Indian Housing Community Organization Garden Project
Purpose: This project seeks to deliver a garden-based health intervention among an urban American Indian housing community.
23. 07/01/2015-12/30/2016
Johnson-Jennings, M (PI)
CTSI Community Engagement Grant
University of Minnesota
Little Earth Strong: Diabetes Prevention for American Indian Youth & Families
Purpose: Little Earth Strong will examine the efficacy of providing fitness opportunities and nutrition education while re-contextualizing health behaviors in terms of cultural values and the re-awakening of traditional lifeways. Functionally, the program will run for 18 months and be made up of three components: daily fitness activities and health coaching, monthly Progress Pow Wows (community Pow Wows combined with a health fair), and a 10 week Indigenous youth health leadership curriculum.
